As Nature Intended.

In 1843, James Carmichael took up a pastoral lease of 5065 acres in Australia's pristine and fertile south-west Victorian farming district.

The land was named - *"The Union Station"*.

The notable property soon became a renowned farming enterprise, recognised for its productivity and fine stock. It was eventually passed down to one of the district's pioneering families before being acquired by The Midfield Group in 2001.

The family owned business' progressive attitude has rejuvenated the Union Station property to once again operate as an outstanding station. **A passion for animal welfare**, coupled with extensive farming experience and the region's rich, fertile land, has led to the production of an **exceptional, luxurious beef product**.

SEAFOOD

A top-down view of a dark, textured surface, possibly a wooden table or countertop. In the upper right, a clear glass pepper mill with a metal base is visible. Scattered across the surface are small, white, irregularly shaped salt crystals. In the lower right, a light-colored, round ceramic plate holds three large, rectangular pieces of raw salmon, showing their characteristic orange-pink color and white marbling. The background is a dark, textured surface, and the overall lighting is soft and even.

DI MARCO

TASTE DIFFERENT

The Pinsa Romana.

Rice and Mother Dough are added into a mix of wheat and soy flour to create the *Pinsa Romana*, a novel oval-shaped invention by Corrado Di Marco in 2001.

Crunchy on the outside, soft and light on the inside. The Pinsa Romana is a light and uniquely shaped traditional Italian flatbread that has a delightful flavour that won't weigh you down.

THE AUTHENTIC ITALIAN PASTA

100% ITALIAN DURUM WHEAT

The unique taste of 100% Italian durum wheat!

Water and durum wheat semolina kneaded and drawn into over **100 shapes and sizes** pleasing the palate of pastalovers in Italy and all over the world. **Pasta Maltagliati**, an Italian product that teaches the culture of food. A combination of past and present, perfectly produced, to give off fragrance and flavor that conquer the tables of worldwide consumers. A balance, a naturalness and a harmony able to exploit the most modern and advanced production processes, without altering the nutritional and organoleptic qualities.

Savour the authentic tuscan flavour in a pasta dish!

Classic, Organic and Organic Wholemeal **Pasta Toscana** with Omega 3 is produced using only **high-quality durum wheat** coming from our territory and pure spring water of the Valdichiana. The durum wheat we use to produce **Pasta Toscana** is cultivated within a **certified supply chain** of Tuscan farmers and processed according to tradition, in order to obtain an excellent and genuine product with a high nutritional value. This process culminates with **bronze drawing** and **drying at low temperature** so that the nutritional properties of the wheat remain intact and give our pasta the right perfume, texture, taste and roughness a real joy for the palate.

Making Pasta since 1848.

From roots dating back to the 19th Century, Maltagliati uses water and 100% durum wheat semolina from Italian origins to give life to *Pasta Maltagliati*.
